

Easi-fit 140 Series Mains Powered Alarms With Alkaline Battery Back-up

This new generation of Easi-fit 140 series alarms with alkaline battery back-up has been designed to provide significant benefits to the installer. Complete with a mounting plate that's easily wired up there is no need for a wiring enclosure or connector either, the alarm simply slides into position. Saves time, saves money. EI's tried and tested design features lie at the heart of every alarm and a stylish new slim profile rounds them off.

Carbon Monoxide Alarms

Both landlords and the public are becoming increasingly aware of the dangers of carbon monoxide poisoning in the home.

CO fumes from faulty heating appliances can't be seen, heard or smelt. The only way to detect them reliably is with a high quality CO detector.

EI 225 Mains CO alarm with built in pattress

EI 205A battery powered CO alarm
