

## 900 Series Entry System

### Single station door entry system

The model 901 is a complete single station door entry system, ideal for domestic and commercial applications

The system includes:

- A standard wall-mounted telephone
- Surface mounted front door panel
- Speech unit
- Surface lock release
- 12 AC power pack

## Vandal Resistant Systems

The VKR vandal resistant systems have been devised for areas that are prone to external vandalism. The flush fitting front door panel is manufactured from stainless steel and includes vandal resistant push buttons.

Flat number engraving is included.

These systems are available from a one way to any size, and are provided with all components necessary to install a complete audio system including a surface lock release.

## Bellissimo Video Door Entry

The new style **Bellissimo** video telephone has a 4" flat tube display with variable contrast and brightness, providing a high definition quality picture.

These telephones do not require co-axial cable and generally operate on standard Cat 5 cables. Standard packaged systems are readily available. Alternatively, systems can be supplied with a variety of option including vandal resistant, digital and combinations of proximity or coded access control.

Standard kit includes includes:

- Slim-line video telephones with privacy
- Front door panel with CCD camera and infrared illumination
- Speech unit ■ Surface lock release
- 12V DC power supply

BS1 Single station kit

## 900 Series Entry System
